Important Information for Digital Printing Decoration: Specific guidelines apply to digital printing decoration, particularly regarding color selection, logo placement, and minimum line width. We are happy to provide advice to ensure the best result.

Color Spectrum

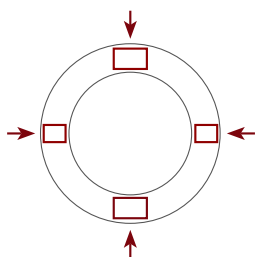

The color range is fixed. RAL/Pantone colors cannot be used for customization.

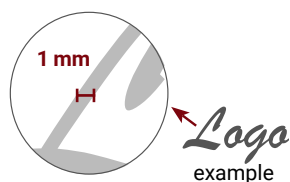

Please note that the colors may vary slightly due to printing on paper.

Logos

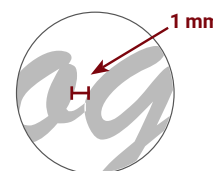

A logo can be positioned on flatware (e.g., plates) at 12, 3, 6, and 9 o'clock

Line thickness for positive & negative logos: minimum: 1 mm

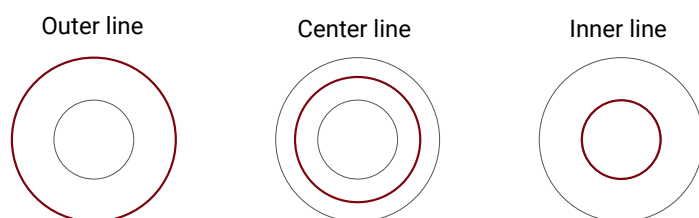

Spacing between strokes, e.g., in fonts: minimum 1 mm

Lines

The available line thickness starts at a minimum of 1 mm and can be selected in increments of 0.5 mm up to a maximum thickness of 5 mm.

Line placement on flatware with a rim

2 mm distance from the edge. Same with coup plates.*

* Over the rim: Please note that this type of decoration requires careful handling to avoid chipping.

Combined decorations of line and logo
